1. COLOR HARMONY

Color Harmony slaps you with instant cohesive palettes so you can finally stop pretending you understand hex codes.

It helps you master color theory and create color schemes in seconds.

2. QR CODE

SCAN ME!

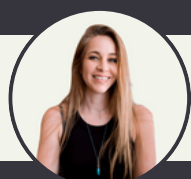

Generate a QR code for you to add to your designs that will direct your users to any URL you want.

Now you can make them match your brand colors, turning them from “meh” to “heck yes, scan me!”

↳ Pro tip: Use them to link to your portfolio

2. TYPECUTOUT

It blends text with background images effortlessly which helps you create stunning and innovative visuals.

Typecutout lets your words melt into visuals smoother than butter on a hot pancake.
